

EMPEROR

AT START: 15 normal troops + 5 Sardaukar in reserve (*off planet*). Start with 10 spice.

REVIVAL: 1 troop free.

ADVANTAGES

You have access to great wealth.

BIDDING PAYMENTS*: When another faction pays for a Treachery Card they pay the spice to you.

SHADDAM'S FAVOR*: (*aka subsidy*) When another faction (*who is not your ally*) buys a Treachery Card you may place any amount of spice in front of your Player Shield to discount the bidding payment by that amount.

Factions may bid more than their spice reserves if you make a deal to use this ability if the bid is successful.

You collect all spice placed in front of your Player Shield this way at the end of the Bidding phase.

SARDAUKAR*: Your five starred troops are double combat strength.

Only one Sardaukar can be revived per turn.

Sardaukar are considered normal troops against Fremmen.

ALLIANCE

You may instantly give spice to your ally at any time.

FATE

PRISON PLANET: Play your fate card at any time to revive up to 5 of any troops and any single leader for their normal cost (*including for other players*).

There are no limits for starred troops or leaders.
(*Cannot be played during combat step 3*)

KARAMA EFFECTS

BIDDING PAYMENTS: Before the first bid is placed on a card, all faction pay for their Treachery Cards directly to the bank.

The ability is disabled until the end of the turn.

SHADDAM'S FAVOR: You are no longer allowed to use this ability. This lasts until the end of the turn.

The spice you have already placed in front of your shield is sent to the bank.

SARDAUKAR: Your opponent does not have to reveal a part of their battle-plan early. This lasts until the end of the turn.

ALLIANCE: Can be played in response to your attempt to give spice to your ally to prevent it.

The ability is disabled until the end of the turn.
